

BIBLICAL & THEOLOGICAL TRAINING

Central American community life revolves around local churches. Pastors and church leaders are the key to improving lives and communities. Education is scarce and expensive, however, and many church leaders have minimal training.

The Theological and Biblical Training Program offers educational opportunities ranging from basic biblical training and continuing study courses, to university degree programs.

A donation of \$450 covers one year's cost for a student to study in the Biblical & Theological Program.

"I come from a fundamentalist denomination, but now I have a more serious and contextualized approach to theology and ministry. In our congregation, we are now working with greater social responsibility, giving priority in our ministry to single mothers and children with terminal illnesses."

Arnoldo Aguilar

"In Cedepca's program I took the first steps in my theological formation. I learned that as indigenous women we are important. Now I feel that I share in equality with others. I discovered my gifts and abilities. Now I help other women."

Carmelina Sam, Quetzaltenango

During 2010, 43 women and 40 men participated in Biblical & Theological Training
